

## CONDITIONS OF ELECTRONIC AUCTION - 25. 11. 2025, 10:30 - UGS DAMBOŘICE

### Parameters of Offered Storage Capacity

|                                     |                                            |                   |                         |
|-------------------------------------|--------------------------------------------|-------------------|-------------------------|
| Storage Period                      | 2 storage years (1. 4. 2026 - 31. 3. 2028) |                   |                         |
| Working Gas Volume                  | 100 000 MWh                                |                   |                         |
| Injection Output                    | 1 280 MWh/day (100 days)                   | Withdrawal Output | 1 780 MWh/day (70 days) |
| Minimum booked storage capacity     | 0%                                         | Type of capacity  | annual                  |
| Size of additional storage capacity | 0%                                         | Kind of capacity  | with fixed output       |

### Financial Parameters

|                                                                      |                        |                                                  |             |
|----------------------------------------------------------------------|------------------------|--------------------------------------------------|-------------|
| Initial price per 1 MWh                                              | 2,3 EUR / storage year |                                                  |             |
| Price step per 1 MWh                                                 | 0,1 EUR / storage year |                                                  |             |
| Storage User's obligation to provide technological gas (Gas in Kind) |                        | YES                                              | 1,20%       |
| Financial security                                                   | 0 CZK                  | Penalty for failure to sign the storage contract | 500 000 EUR |

### Parameters of Electronic Auction

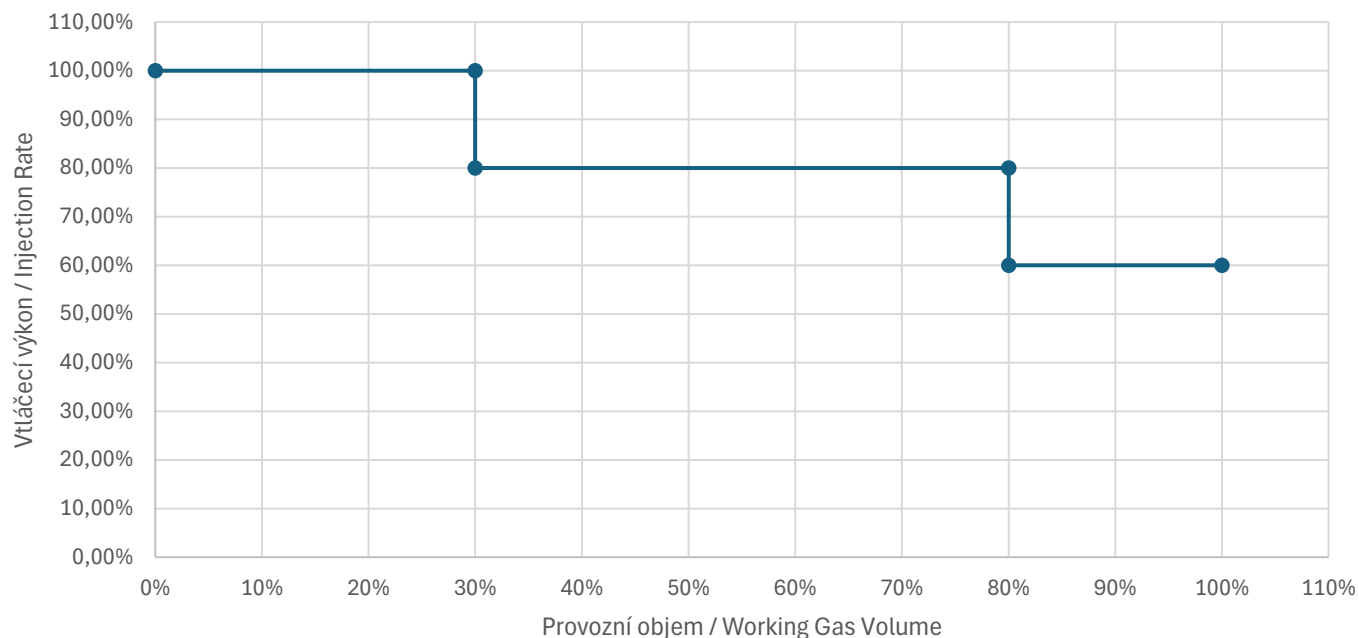

|                      |                     |                                    |                     |
|----------------------|---------------------|------------------------------------|---------------------|
| Type of auction      | Capacity Auction    | Auction mode                       | Standard            |
| Start of the Auction | 25. 11. 2025, 10:30 | Request for participation deadline | 25. 11. 2025, 10:00 |
| Auction round time   | 10 minutes          | Interval between auction rounds    | 1 minute            |

### Annexes

|                       |             |                         |             |
|-----------------------|-------------|-------------------------|-------------|
| General Booking Terms | Annex No. 1 | Sample Storage Contract | Annex No. 2 |
|-----------------------|-------------|-------------------------|-------------|

## Curves

### Vtláčecí křivka / Injection Curve

### Těžební křivka / Withdrawal Curve
